

SNAP-ON DRAWER CO. MORROW, OHIO

Build Your Own Cabinets

WITH SNAP-ON DRAWERS

The sturdy, steel shells of the SNAP-ON DRAWER snap together on sides, top and bottom, with duplicate shells, to form a strong metal cabinet. No tools are required. Just place the metal buttons of one shell, directly over the holes, in the

adjacent shell, and snap the buttons into place, one at a time.

If you wish to change the position of a drawer, the shells can be readily pried apart with a knife blade, and rearranged.

Finished in GUN-METAL GRAY
